## Wholesale

### AWS Group – Elite Hand Sanitiser: Supply and Pricing

#### **Valid until further notice**

As a producer of multiple sanitising solutions, including Elite Hand Sanitiser, we have experienced a huge increase in demand for our products as a result of the Novel Coronavirus (COVID-19) pandemic.

Our suppliers (for example raw material and bottle suppliers), have been impacted in the same way.

AWS is now required to make upfront payments to many of our suppliers to secure the supply of materials needed for us to continue to manufacture product. If we do not make these payments, we cannot secure supply and it is allocated to others.

Accordingly, we have been left with no choice but to implement the following measures to the supply of our Elite Hand Sanitiser product.

#### **Payment Terms**

##### **New Customers**

AWS will require a 50% deposit upfront on all orders of Elite Hand Sanitiser to secure your order. The remaining 50% will be due to secure delivery.

Once you place a second order with us, you will become a Returning Customer and will qualify for the payment terms below for Returning Customers.

##### **Returning Customers**

AWS will require a 50% deposit upfront on all orders of Elite hand Sanitiser to secure your order, with the remaining 50% due on our normal payment terms of 20<sup>th</sup> month following invoice.

##### **Long Term, Loyal Customers**

AWS will require a 15% deposit upfront on all orders of Elite hand Sanitiser to secure your order, with the remaining 85% due on our existing payment terms with you.

#### **How long will these payment terms apply?**

We hope that relative normality will return to the market soon, however until it does the advised payment terms will unfortunately need to apply.

#### **Current pricing and pack size availability**

We have chosen to support New Zealand suppliers of our bottles and will continue to do so, rather than sourcing offshore.

We are still waiting on smaller bottle deliveries, and so have the following pack sizes available currently:

<b>Elite Foaming Hand Sanitiser</b>	500ml	Spray pack	\$ 10.50 (ex. GST)
<b>Elite Foaming Hand Sanitiser refill</b>	5 Litre	Jerrycan	\$ 35.00 (ex. GST)

Minimum order quantities do apply currently given current demand levels, so please enquire if you have not been made aware of these already.

### **General message regrading hygiene**

1. Our Hand sanitiser contains a unique blend of Quaternary Ammonium Compounds and ANK Neutral Anolyte. The level of these active ingredients contained within our hand sanitiser is within the best practice global guidelines.
2. The product has been tested to the AOAC Official Method 960.09 (Germicidal and Detergent Sanitizing Action of Disinfectants).
3. Ministry for Primary Industries Approval C51 as a hand wash and sanitiser

### **Lastly Stay Safe & Healthy**

We thank you for your continued business and we hope that you, your family and friends stay safe in these unprecedented times.

Please contact your us directly if you have any further questions in the interim.
